

2026 Birthday Wishlist

Written by Vix (me)

NOTE: You don't need to draw everything on the list if you don't want to. You can choose only one if you want to, or draw more than one if you want to, it is up to you. I was just letting you know that this is my birthday wishlist. This will be deleted/unpublished after my birthday is over, but I am letting you know for now.

It's me, Vix.

My birthday is on May 31st, and I've written a wishlist for those who are interested in drawing me gift art.

Important Rules Before Drawing

- 1. Never redesign them such as modifying their appearance or anything that may compromise their original design.** However, it is fine if you draw them to be more easy to you such as simplifying their design. I also drew model sheets and written biographies for most of my characters so they're a must-read before you want to draw them. I know that you don't like being told what to do, but I was just giving out some truth.
- 2. No NSFW (not safe for work) art of the underage (such as Vosso) and/or asexual characters (such as Kivuli)** You know such stuff is wrong.
- 3. No NSFW (not safe for work) art of me, period.** I am the sex-repulsed flavor of asexual, and will never tolerate myself nor the things I create being used in sexual content. Shipping me with someone (i.e. users, celebrities, other people, fictional characters) is illegal and not acceptable. Also, I do not wear midriff-barring or any other fetish-related outfits. Same goes for underage and other asexual characters.
- 4. It is not okay to change the characters' species.** My characters' species should be left alone for a good reason.

5. Underage and/or asexual characters (including myself) are not allowed to wear skimpy clothing.

This is an important boundary.

6. Underage and/or asexual characters (including myself) should never be shipped/paired up with themselves or other characters/people/etc.

Especially since I am immune to being shipped.

7. No bad crossovers of my characters/series with those I dislike (i.e. The Lion King/The Lion Guard, Sonichu, So... You're a Cartoonist?). Unless it's a catharsis pic of my characters beating the snot out of those I dislike.

7. Absolutely no traitors/betrayals when it comes to Norm Breaker's good/protagonist characters due to the entire Norm Breaker squad having strong bonds. And yes, this includes Mabaya, despite his "evil" looks and name (which is the Swahili word for "evil"), he is a good guy and not a villain. Same with the rest of the Norm Breaker squadron and their allies.

9. Official couples in Norm Breaker (such as Misuli x Cyan and Razor x Imbali) are not allowed to break up nor paired with anyone else other than each other. This rule is important.

10. Hate art/Troll art/Rape art/Kill art of me or any good character that I created is off limits and will

not be tolerated. I'm not a cow. I'm a good person and I don't deserve to be mocked nor attacked.

Otherwise, have fun.

Here is my full wishlist for my birthday this year.

Nice art of my characters

My preferred choice would be any one of the Norm Breaker squad, or any of the Service Dog squad, or Foxeline Redhurst.

Faru Mhunzi Rhino

Natlei Loxodonta

Shukun Komodo

Nice art of myself

Drawing myself/my sona would be nice, too, but it's all up to you.

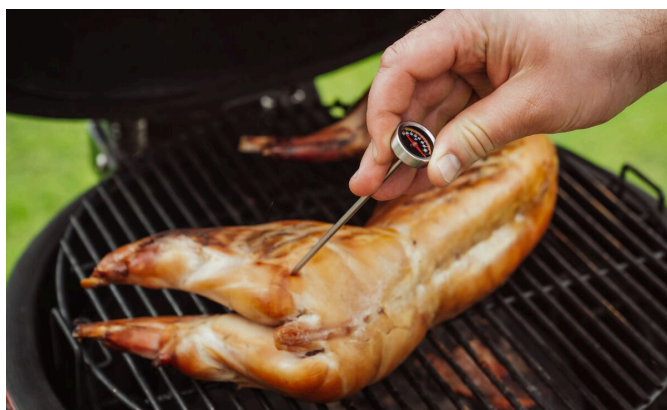

Any one of my forms is fine, as long as it's respectful since all forms of my sona is the same person as my real life self.

You can find all the art I've drawn of myself here.

My favorite birthday dinner is rabbit meat and my favorite cake is blueberry cake if you're interested in drawing my sona having a birthday cake or birthday dinner.

Remember to be respectful. Do not forget.

Art of my favorite fictional characters

If drawing original characters is not your thing, then a drawing of any one of my favorite fictional characters would also be a nice gift for me, too. Note that I happen to like lots of video game characters, but I'm still giving you a variety to choose from.

TOP 50 FAVORITE CHARACTERS

My top favorite fictional character is none other than [Fox McCloud from *Star Fox*](#).

Since *Star Fox* is trending thanks to the upcoming new *Star Fox* game for the Nintendo Switch 2 and Fox's appearance in *The Super Mario Galaxy Movie* (2026), I'd love a picture of **Fox McCloud wishing me a happy birthday**, while winning tons of box office money.

Do not forget this fact if you decide that you want to draw fan art as opposed to original characters.

And that is it for now.

Ko-fi and commissions.

I have a Ko-fi account if you want to give me money and have me draw commissions for you.

I could use more money right now seeing that I run on subscriptions (including Clip Studio Paint, Nintendo Switch Online, PlayStation Plus and Xbox Game Pass Ultimate) so I would appreciate it if you would donate tons of money to my Ko-fi as much as you can. So let me know what you would like to see me draw for you as a commission.

Contact

If you need to contact me through DM (direct message), you can find my socials at this following link:

Note that I'm the most active on [Newgrounds](#) and [Bluesky](#), but I still check all my other sites every now and then.

Now with everything said...

I hope that I have a good birthday like usual and wish me the best of luck.

~Vix
