## *“Mean to Ragna”*

And? Ragna is mean to everyone. Thalia can be a little mean. As a treat.

## *“Supports Capitalism”*

Yeah she owns a super massive fashion brand. So what? Are you saying she can't be a ceo? Smh. She's just a girlboss doing girlboss things.

## *“Lies and gaslights people”*

I can't believe you'd say such things about her. Looks like someone needs to get off the twitter hate train. I can't believe you. I think *you're* the one trying to gaslight me.

## *Killed people?*

These accusations were never proven in a court of Descoran law and were slander upon her good name. These lies were obviously spread by the same people who hate girlbosses.

*“She literally uses dark magic”*

*“Oh my gods she is literally actively diving into the abyss to keep her grip on the world from releasing the”*
