Who The Fuck Is Gawain Hale?

Gawain Hale Films, also known as GH-Artworks (or just GH for short), is an artist, YouTuber and graphic designer from the United Kingdom. He is best known for his extremely loyal involvement in a (now defunct) YouTube group, the Powerhouse of Entertainment, aka the POE. He is also quite well known for his content showcased on YouTube; such as fake logos, fake graphic designs, YTPs, and other content.

Unfortunately, he's one of those nasty ass motherfuckers who couldn't keep their weird fucked-up shit to themselves. This doc serves as an expose for all the not-so-good things he has done.

His DeviantArt Account

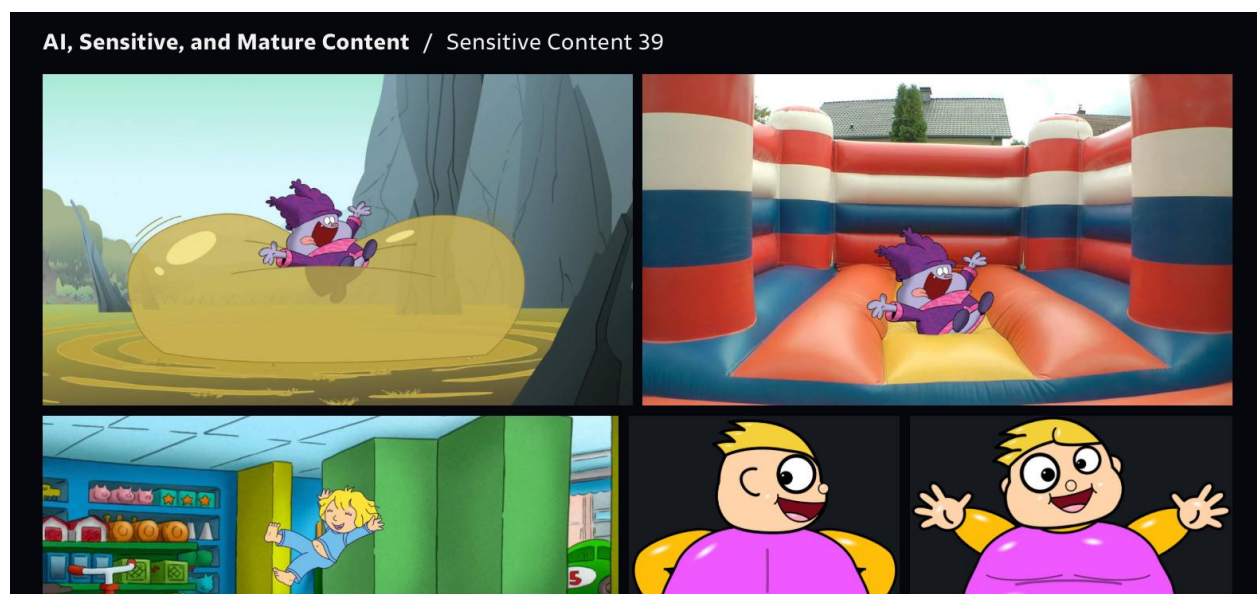

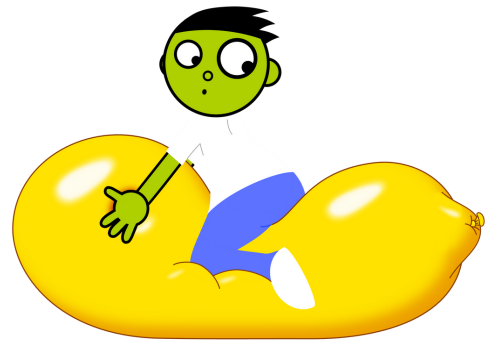

...yep, he has a DeviantArt account, and the stuff that he creates and favorites for it is beyond disgusting.

First of all, like a lot of DeviantArt degenerates, he creates fetish art. Now, having fetishes/liking fetish art isn't bad of its own, but the stuff this guy likes is...extremely questionable and very concerning. To make it short; his fetishes usually consist of objects and materials that are bouncy or stretchy in nature. These materials include, but are not limited to:

- Balloons
- Trampolines
- Space hoppers and exercise balls
- Pretty much anything inflatable and stretchy
- Latex
- The list goes on...

Again, having these kinds of fetishes aren't bad on their own but the problem with his fetishes is that most of his artwork (and by extension, his fantasies) usually revolve around characters that are under the age of 18.

For example, he really likes the PBS Kids mascots Dash and Dot, and has drawn them bouncing on balloons extensively. (example shown on the right) Bear in mind that PBS Kids is a TV network that is aimed at preschoolers, so drawing them in situations that are clearly meant to be fetish-related is extremely wrong. And keep in mind that this is just one example, there are plenty more artwork showing children and other minor characters bouncing on various objects, such as balloons, trampolines and space hoppers, in erotic ways. He has said that these kinds of art are not fetish-related...but if they weren't fetish art pieces, then why in the flying fuck is this art in a DeviantArt folder labeled "AI, Suggestive & Mature Content" then?

A lot of the other bouncy fetish art that he has made also involves other characters that are underage. Another prominent character featured is Pibby, who is a kindergartener. He **REALLY** likes her bouncing on a "jello castle" (which, if I remember correctly, is featured in one of the Cloudy With A Chance Of Meatballs movies) and has even talked about making a movie focused solely around her bouncing in a jello castle...all for his pleasure.

Now, here's the thing: if he drew Pibby (or any underage character, for that manner) jumping on bouncy materials once: sure, it would still be weird, but it wouldn't be problematic. But the fact he is drawing these kinds of things, over and over again, proves that this isn't just some silly art made for fun, but rather fetish art. Now, again, he has stated that this isn't fetish art, but if that was the case:

1. Again, why is he putting these art pieces in suggestive folders?
2. Why is he denying it so rigorously?
3. Why does he even have to deny it in the first place? Like, seriously, if you have to deny that this is your fetish, chances are that it's probably your fetish.

His DeviantArt account also has other types of questionable content: for instance, his OC's. His sona, Mr. GH, really likes bouncy/inflatable material and rubber. Like, a lot. A little...too much honestly. There's also GH-Man, a blatant SamSam recolor that's basically just a diet version of Mr. GH, and POE-tan (originally made by MamonStar761), a fictional mascot for the Powerhouse of Entertainment, which we discussed prior.

And then there's the Blimpers.

Oh god, the Blimpers...

His “Chubby” OC, Bobby Blimper

Meet Bobby Blimper, his “bouncy, chubby” 11-year-old OC with a big butt. A big butt that GH, really, really likes...ew...

...also he commented that his butt was sexy...ok, moving on!

Wow! I'd thought a chubby guy wears a bikini for the ladies, but that is so silly. Anyways, Bobby Blimper wears a beautiful bikini to really wow the crowd. Looking Good, Bobby! So, he's fastionable on the front side, but what about the back side? You'll wait and see.

(eww....)

His DeviantArt & Pixiv Favorites

Alright, now, this is where things get REALLY fucked up. At this point, there is no denying he is a pedophile; because most of his favorites on DeviantArt and Pixiv accounts (especially the latter) are extremely explicit images of children.

For instance, he really likes this one character: Miko, from the insanely obscure anime series *Mighty Cat Masked Niyander*. Funnily enough, he actually has a folder in his DeviantArt favorites dedicated to fanart of the anime. One click and...oh! That's lolicon! That is literal, uncensored, lolicon, for everyone with functioning eyeballs to see! (I censored for obvious reasons, but the original was uncensored. And it was graphic as fuck.)

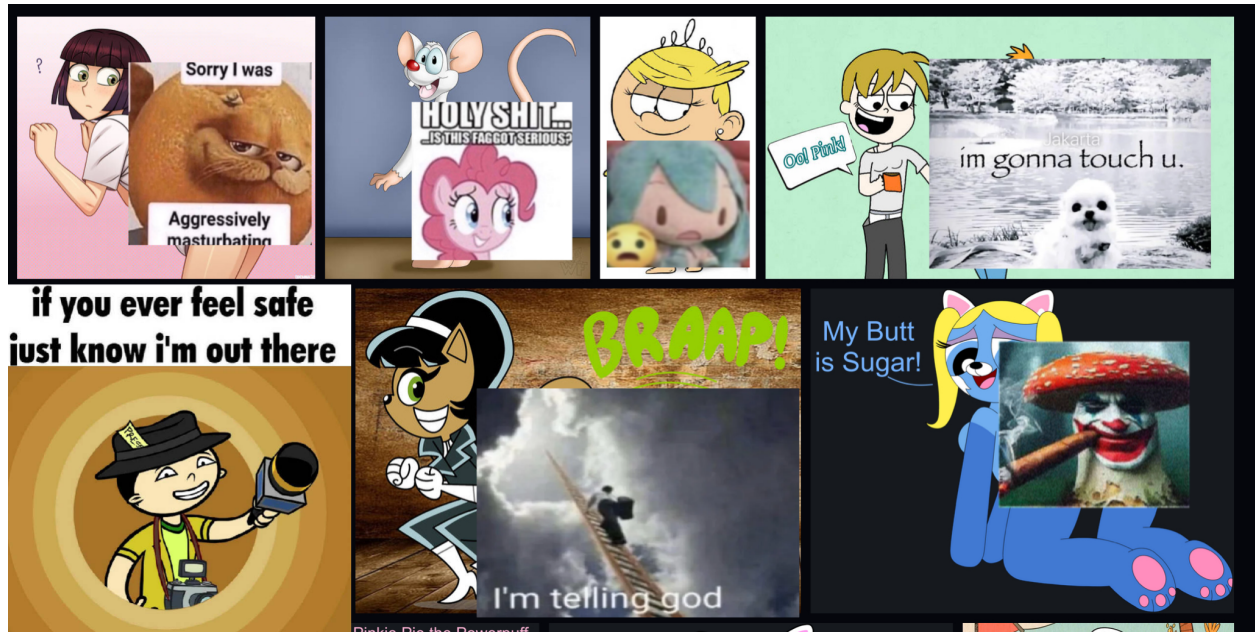

it

Wow, I fucking hate this guy!

And that's not all! There's many folders in his DA favorites that are fetish-related, such as "Bouncy Balloons", "Chubby People", "Bouncy Puddings" and "Bubble Bouncing And Playing", just to name a few. They're exactly what you expect: images of people bouncing on stretchy and flexible material for sexual pleasure, from consenting adults to little children. However, for this doc, we are going to be putting our main focus on the "Booties, Farts and Wedgies" folder.

Yes, that's the actual, legitimate name. I'm not fucking joking. Children, lots of children. Children twerking, children with their panties exposed, children squishing on balloons, even children farting. This is what he is aroused by. This is what he's into.

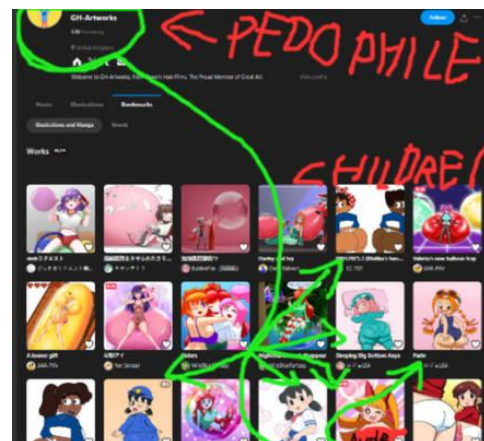

The image on the bottom-left I'm just not risking. From my memory, it was a child with a bathing suit on. Again, tell me, how the FUCK is this not pedophilia? Absolutely insidious, there is no fucking excuse for this! And these are just the DeviantArt favorites. These are basically child's play compared to the absolutely abhorrent slop that can be found on his Pixiv account. (Thanks to 1mn0tn1ko for finding this for me)

This despicable, abominable, foul beast has favorited straight-up loli ecchi, loli looner images and loli porn. Again, there is absolutely no excuse for this. And this was taken days ago by the time of this doc being made. So, any excuse for him, such as posts saying shit like "OH! IT WAS IN DA PAST!!!11!!1!!!!1!!1!!1! ill CHANGED

FOR DA BETTER!!!!!!1!!1!!1!!1!!1!" are on deaf ears. It's clear he's not going to listen, nor ever listen to this. However, please note the goal of this document is not for him to change for the better, and rather it's about exposing his disgusting actions and getting him offline.

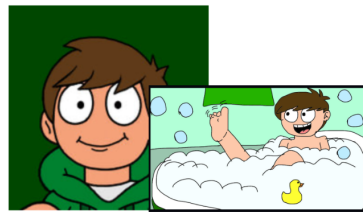

And these are just SOME of the many crimes of this nasty ass motherfucker. If I had made this doc exposing EVERYTHING this person has done, this doc would've been a billion pages long.

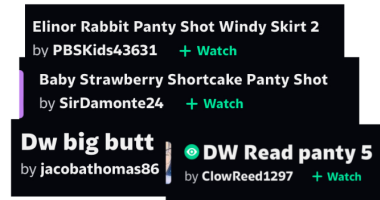

So I think i'll wrap it up here. But listed on the right are other examples of the things listed in this doc, followed up with other crimes he has done.

If you are in contact with GH, please...do not listen to anything he says. Block and report him immediately. Only together can we get his accounts deleted on the internet, once and for all.

THE SINS OF GH

fetish art of Edd from Eddsworld, which is basically Edd Gould (who is dead btw)'s sona (this is extremely necrophilic in nature)

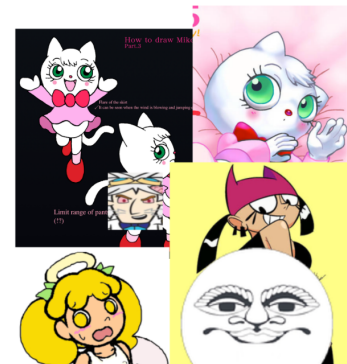

these are the names of some artworks GH has favored. they will not be fully shown as they are extremely graphic.

there is an entire folder on his DA favorites dedicated to twerking butts, naked butts, underpants, wedgies, panties and farting.

it is extremely foul and predatory in nature.

his pixiv favorites are littered with lolicon and cp. for example, he favored explicit artwork of tails from the sonic the hedgehog series (who is canonically a minor)

he shares and favorites explicit art of minors

he likes drawing art of children's butts, twerking, in much detail
