it's dreams but they replay
in my head as if I really
lived it. it's stressful trying
to describe it. I wake up
with headaches. I feel
pain in my dreams. it
is insane.

When I research it says it
might be seizures

i keep asking myself, is this really my fate?

did i surrender so easily?

is this it?

well if it helps, since you made the decision, this has been the happiest i've seen you be.

like you have a glow in your eyes that wasn't there before.

you finally decided to do what Rea wants, not your mom.

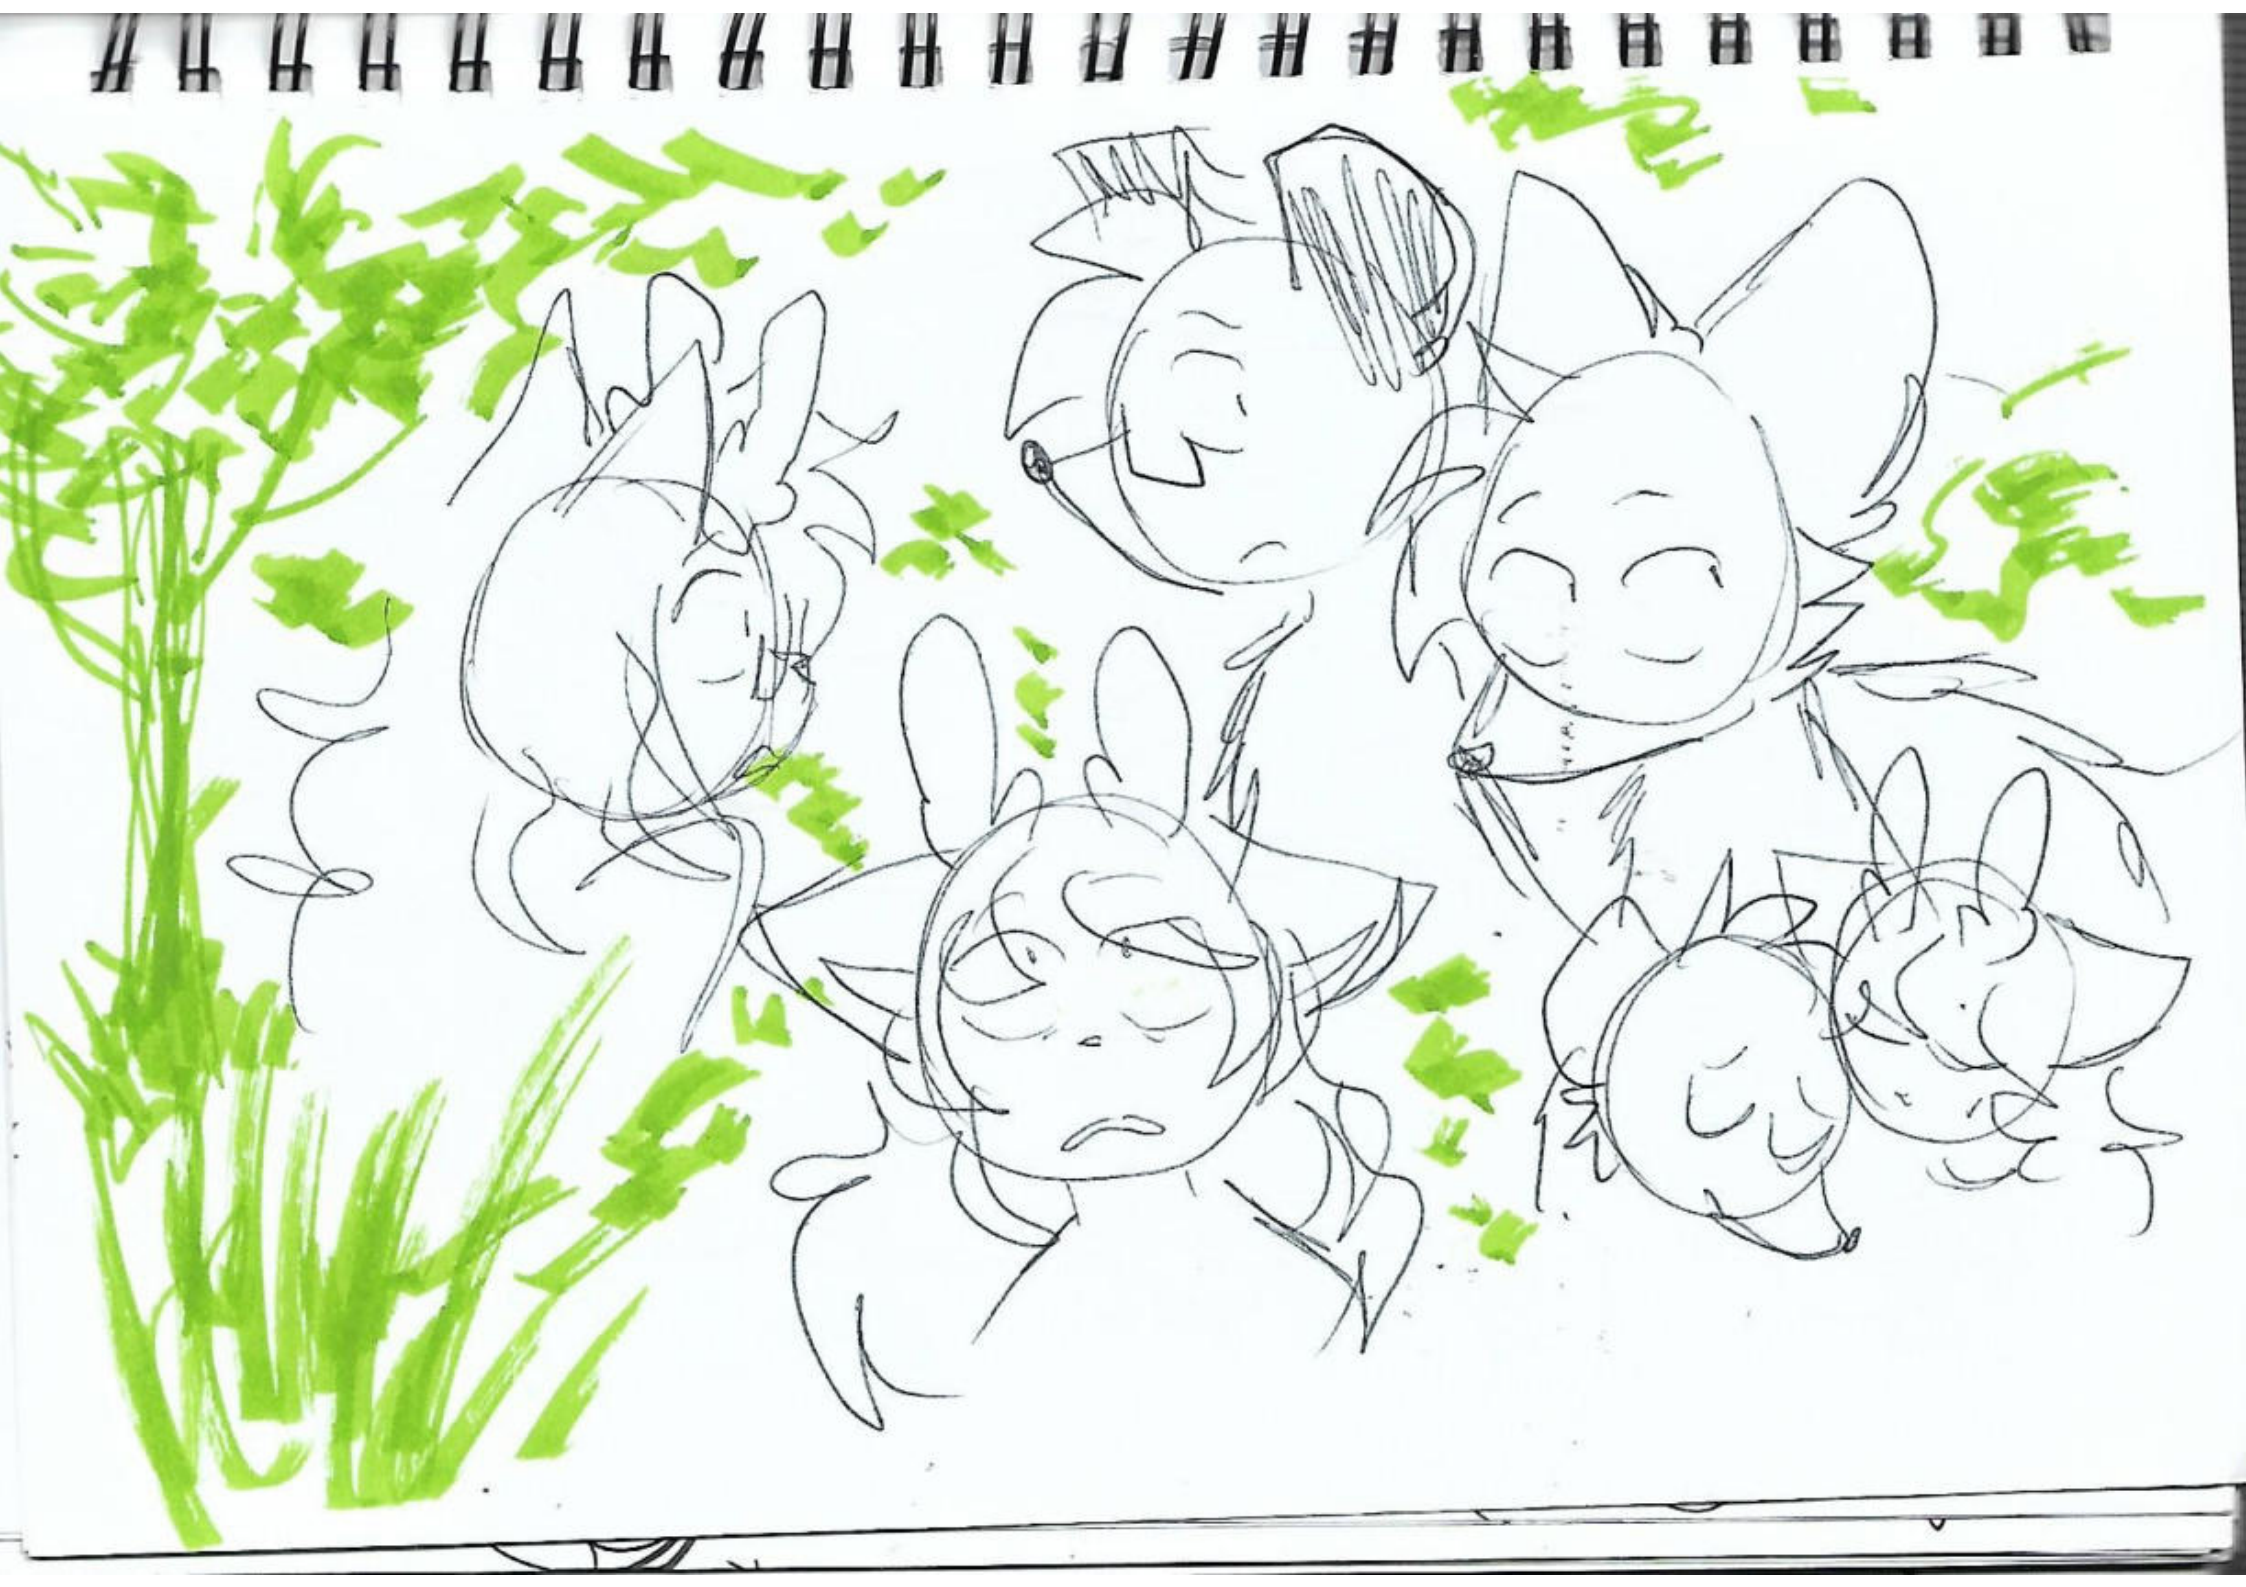

you freed Rea and now they're happy. i think that was the intended goal.
