

dylan was my favorite and i stand by that decision. thought that's so suite life of hannah montana was a cultural phenom and was right abt that too

Dylan & Sprouse

Jonas Brothers

i do unfortunately think of this every time i think of the

watched a live g&a stream w/ them on justin .tv and they got in an argument abt if you can be allergic to fruit bc god made it. also the first time i clicked a meatspin link (sorry mom)

Avril Lavigne

duhhhh! girl rock queen of the 2000s? i know she was wearing a tie and HEAVY eyeliner in the poster i had. i had a pal in middle school who melted her eyeliner w/ a lighter to look like Avril's, scandalous..

Zac Efron

i had a FAT crush on Zac Efron when i was a kid. i loved HSM & Hairspray. i BRIEFLY!!! had a locket with his picture in it, cut out of Bop mag itrc...

Ryan Sheckler

i was a skate rat and a tween in 2007, so the ryan sheckler poster was obligatory. i never really watched his show on mtv tho ironically, bc i was already anti-reality TV at the time.

basically if a girl picked up a guitar in the 2000s i'd have heart eyes about it and lindsay was picking up guitars A LOT. mean girls is still one of my favorite movies but i still haven't seen freakier friday
